

Water and Climate Change on Cape Cod ***What You Should Know***

Friday, June 14, 2024, 2:00 – 4:00 pm
Orleans Snow Library, Craine Room

Or join via Zoom: <https://us02web.zoom.us/j/85682954829> ID: 85682954829

Rich Delaney, Executive Director, Center for Coastal Studies

Katie Castagno, Director, Land-Sea Interaction Program, Center for Coastal Studies

Mark Reil, Assistant Town Manager, Town of Orleans

Moderator, Shelly McComb, Coastal Resilience, Woods Hole Oceanographic Institution Sea Grant

- Overview of climate change big picture
- What are the specific impacts of climate change on marine and fresh water in Orleans and on the Cape?
- What is the Town of Orleans doing in response?
- What should you be doing as an individual?

Orleans has 54 miles of coastline.
